BOSTON GETS THAT DISPUTED GAME

Rain stopped the home game yesterday. President Nimick signed Pitcher Jones and Catcher Hess, of Homestead. Jack Rowe talked interestingly about baseball affairs and how to make a good team. The New Yorks went ahead of Boston and took first place in the pennant race. Boston gets the disputed game at Philadelphia.

Rain prevented the local team from giving the Cleveland club another sound walloping vesterday. The home players had their minds fully made up to play winning ball, and they were in playing humor without any doubt. However, the Babies were spared the ignominy of a sound spanking. They may receive it today, and it is also possible that the home players may not be able to carry out their inten-

Another experiment is to be made by the Yesterday President Nimick signed the Homestead battery Hess and Jones. The latter, as is generally known, is a left-handed pitcher, and he displayed his skill very satisfactorily yesterday at Recreation Park. In presence of the players he and Hess had a long trial, and according to the reports of the play-ers the new battery did well. Last evening, speaking of the matter, Jack Rowe said: "Jones has a good curve and apparently can use it with great effect. Hess caught him well, and it may be that Jones will make a good

WITHHOLDS HIS NAME.

Yesterday afternoon President Nimick refused to give the name of the young pitcher at Philadelphia whom the club is trying to get. It is likely that the young mar will be here within a few days, because it is understood that the club officials are inclined to try all the good youngsters they can before the season closes. Nothing has been done in the Morris case yet and President Nimick does not know whether or not he will be released. Jack Rowe talked very interestingly about baseball affairs last evening. Regarding the championship struggie, he said: "I think New York will win the pennant because they are stronger in the pitcher's box than Boston. The latter club has only Clarkson to rely on, and he may break down before the season ends, On the other hand, New York has four pitchers who are doing good work. Keefe and Welch are all right, and Crane and O'Day are in excellent form to fill up with. At any rate I would like to see New York win. I also think we will beat Indianapolis out. I am so sure of this that I dare risk a few good cigars on the

"No doubt," continued Mr. Rowe, "the club has been very disappointing this season, but the pitchers may not have been to blame. I think that a good batting team is always a likely winner. When Detroit was at its best the good and timely batting was the great cause of success.

ABOUT TIMELY HITTING.

"Almost every time when we could keep the hits anything like even we won, because every man in our team was hitting the ball, and hits could be made when they counted. This is the great feature of success. I also have another idea as to the way of putting a profitable ball team on the field. A club, that is the players, should all be in good shape at the beginning of the season. The club that starts out well and plays good ball until say about the 4th of July will make money. Up to that time baseball enthusiasm is very strong, and a club that makes a good showing draws the crowds. Cleveland's team affords proof of this. The players of that team were all in good condition to start the season. Stronger clubs were not in their best form, and hence Cleveland got near the top and obtained a remarkable prominence.

"As long as the club remained near the top it made lots of money. There is something necessary, however, to get a club into the condition at the time I name. The players ought to go where the weather is warm long before the season opens and play regularly. The Detroit team on one occasion went to Macon, Ga, and remained two weeks, playing every day, and then took a tour. When we returned home nobody could beat us. I maintain that every dollar spent in this way yields \$100 when the season gets fairly opened." ABOUT TIMELY HITTING.

The billiard match between Shaefer and McKenna is likely to be declared off. It seems that before Shaefer had protested against Roche paying \$500 for a postponement, McKenna's man had already received the noney from Roche for his man, and the Shaefer party have got to make the best of that end of it. But now Shaefer's friends are endeavoring to let the \$500 go as forfeit, and want Jake to give up the match altogether, They say McKenna is not at all in Shaefer's class, and for that reason the match should not take place. If McKenna wins Shaefer will lose his prestige, and they say it is too big a risk to take with a man of McKenna's standing. The outcome of the affair will be watched.

gained no new information from Mr. Bigelow, and he supposes the City Councils would be his only hope of getting anything done.

Mr. Bigelow said afterward that Malone had shown him a letter from the Washington officials requesting him to secure the assistance of the Pittsburg officials in getting the grading done. Mr. Bigelow told him the city must do the work sooner or later, entirely at her own expense, but he could not promise when that would be done. Malone said the Government would be satisfied if it was done within two or three years, but Mr. Bigelow replied that that was too far ahead for him to give it any consideration at present, he having now plenty of work on hand to keep him busy for two years at least, and probably longer. He advised Mr. Malone to appeal to Councils if he was in a hurry about the matter, as he had no authority to proceed unless ordered by Councils.

Mr. Hoover said that the matter was not an accident; that the wires had been purposely cut, and evidently by some "soreheads," as he termed them, who were concerned in the recent strike.

NOT SERIOUSLY HURT.

Fast Express Thrown From the Track by a Misplaced Switch. The Columbus and Chicago express, known as No. 3, due out here at 12:05 yesterday afternoon, ran off the main track at Colliers, W. Va., 36 miles from Pittsburg owing, it is said, to a switch being misplaced and dashing into No. 7 siding, where were lying

It made match wood of the foremost one, the engine being hurled wheels uppermost down the embankment, the baggage car being raised from its trucks and badly damaged, its contents being destroyed, and the smoker turned sideways and partly down the slope. Fireman John Obey was engaged in putting

on a fire at the time, and he just had time to become aware of a crash when he, next moment, found himself lying on the rails, escaping with a few bruises. The engineer, Barney Ba non, had a similar providential escape, being tumbled into the bushes and getting off with a few scratches. It is reported that the express messenger was seriously injured, but on this head nothing could be definitely learned. The coaches remained on the track, and beyond a pretty severe and general shaking up, the passengers were uninjured, After a delay of an hour and a half a relief engine hauled the train into Dennison, whence it continued its journey. After the decision discharging Nagle was read, notice of appeal to the United States Supreme Court was given by counsel repre-senting the State of California, and Nagle as released on his own recognizance, the

onds being fixed at \$5,000. The decision was very long, and was de-livered by Judge Sawyer. It gives a review of the circumstances of the past year, including threats of Terry and his wife, which culminated in the recent tragedy at Lathrop. In commenting on the subject of urisdiction, Judge Sawyer says:

NO CONFLICT OF AUTHORITY. "There is no conflict between authority tate in such cases is subordinate and Na tional Government paramount."

He continues: "There can be no doubt that jurisdiction of the United States is not

affected by reason of location where the main questions which the Court considers are, first, was the homicide now in question committed by the petitioner while acting in the discharge of the duty imposed upon him by the Constitution and laws of the United tates, and, second, was the homicide necessary, or was it reasonably apparent to the mind of the petitioner, at the time and under the circumstances then existing, that killing was necessary in order to a full and omplete discharge of such duty?"

The Court further declares that only a United States Marshal or his deputy have performed the duty of protecting Judge Field, the use of State police being impracticable, as the powers of the sheriff would have ended at the borders of

OR washing the hair, only the very best of soap and pure water should be used. The average soap contains too much free alkali, which draws the natural oil from the hair and scalp, and leaves the former harsh and lustreless, while it roughens the latter, causing scurf or dandruff. The purity and mildness of the IVORY SOAP gives it pre-eminence for cleaning the hair and scalp. It contains no free alkali, so its use insures a clean and healthy head of hair of the lustre and softness of silk.

A WORD OF WARNING

There are many white soaps, each represented to be "just as good as the 'lvory';" they ARE NOT, but like all counterfeits, lack the peculiar and remarkable qualities of the genuino. Ask for "Ivory" Soap and insist upon getting it. Copyright 1888 by Procter & Gamble,

HIS DISEASE CAUSED HIM TO FEAR INSANITY. CAUSED HIM TO FEAR INSANITY.

Mr. C. V. Pulpress, of No. 46 Liberty street,
Allegheny, had for a long time suffered from a
weak, tired feeling, no ambition, pain across
the small of his back and palpitation of the
heart. His complexion was very sallow, and
he had bloating, belching of gas and
distress after eating. He lost fiesh, his
memory became poor and his mind became so affected that he could neither read por
think, and was in constant fear of becoming insane. He often felt dizzy, and he became so
nervous as to entirely unfit him for any business. Having read in the papers that the
physicians of the Polypathic Medical Institute
make a specialty of kidney and urinary diseases
he began treatment with them. His own words
state the result: "This is to certify that I have
been cured by the physicians of the Polypathic
Medical Institute at 420 Penn avenue.

CAUTION W. L. Douglas' name and the price are stamped on the bottom of all wearers against high prices and inferior goods. If your dealer does not keep the style or kind you want, or offers you shoes without W. L. Douglas' name and price stamped on them, and says they are just as good, do not be deceived thereby, but send direct to the Factory, for you can get what you want by return mail, postage paid. Dealers make more profit on unknown shoes that are not warranted by anybody; therefore do not be induced to buy shoes that have no reputation. Buy only those that have N. L. Douglas' name and the price stamped on the bottom, and you are sure to get full value for your money. Thousands of dollars are saved annually in this country by the wearers of W. L. Douglas' Shoes. In ordering by mail state whether you want Congress, Button or Lace, London cap toe, plain French toe, or narrow cap toe, and be sure to give size and width you wear. I can fit any foot that is not deformed, as my shoes are made in great variety of widths, sizes and half sizes. I guarantee a fit, prompt delivery and perfect satisfaction or money refunded upon return of the shoes in good condition.
